

Use-Case Flow Specification

NAME: ADITYA MALLIKARJUN PARANDE

SRN: PES1UG24CS028

1. Use-Case Details Table

Item	Details
Use-Case Name	Submit Competitive Freight Bid
Primary Actor	Freight Carrier
Goal	Allow a verified carrier to submit a competitive bid for an available shipment before the auction ends.
Preconditions	1. Carrier has an account. 2. Carrier is verified. 3. Carrier has valid permits/documents. 4. An active shipment is available for bidding. 5. Auction time has not expired. 6. Carrier is logged in.
Postconditions – Success	• Bid is recorded. • Bid is linked to the shipment. • Shipper is notified. • Carrier can see the bid status.
Postconditions – Failure	• Bid is not recorded. • Carrier receives an error message.

2. Main Success Scenario

Step	Action
1	Carrier logs into the marketplace.
2	System verifies the carrier.
3	Carrier searches for available freight shipments.
4	System shows eligible shipments with cargo details and auction deadline.
5	Carrier selects a suitable shipment.

6	System shows shipment details and current bidding information.
7	Carrier enters the bid amount and required details.
8	System checks carrier eligibility, permits, bid amount, and auction time.
9	Carrier submits the bid.
10	System records the bid with a timestamp.
11	System confirms the bid to the carrier.
12	System notifies the shipper about the new bid.

3. Alternate Flow – Expired Auction

Step	Action
A1	At Step 8, the system finds that the auction time has expired.
A2	System rejects the bid submission.
A3	System shows: "Bidding period has ended."
A4	Carrier returns to the available shipment list.
A5	No bid is recorded and the shipper is not notified.

Exception Flow:

If the carrier verification or permit check fails, the system rejects the bid and shows the reason. The carrier must update the required details before trying again.
